JUSTIFICATION FOR REAL WORLD TESTING APPROACH

Having access to stored data, we will be monitoring over time the specified metrics for each applicable measure via database queries. This will allow us to easily confirm utilization as well as see trends over time for the measures for different care settings.

STANDARDS UPDATES (INCLUDING STANDARDS VERSION ADVANCEMENT PROCESS-SVAP AND USCDI)

No updates concerning this measure for Systemedx Clinical Navigator version 2022.12

MEASURES USED IN OVERALL APPROACH

DESCRIPTION OF MEASUREMENT/METRIC

The percentage of patients that were seen with available visit info to be viewed/printed/ or transmitted from their patient portal vs those that logged in and viewed/downloaded/transmitted the CCDA. Broken down by their age-group.

ASSOCIATED CERTIFICATION CRITERIA

170.315(e)(1) - View, Download, and Transmit to Third Party

JUSTIFICATION FOR SELECTED MEASUREMENT/METRIC

Percentage of patients that access their data gives idea of direct patient engagement with their data via patient portal. Age group gives further information on the types of patients that engage with this technology.

170.315(e)(1) - View, Download, and Transmit

Real World Testing 2023

CARE SETTING(S)

List each care setting which is covered by the measure and an explanation for why it is included.

Care Setting	Justification
Ambulatory Internal/Family Medicine	All care settings have access to utilize this functionality.
Ambulatory Orthopedics	All care settings have access to utilize this functionality.
Ambulatory Allergy Clinics	All care settings have access to utilize this functionality.

EXPECTED OUTCOMES

The expected outcome for this measure is that there will be more people 40 and younger that access their data via the patient portal.

The methodology and ability to perform actions related to View, Download, & Transmit should be present and uniform across all care settings.

The results of the metrics provided should demonstrate this over time.

SCHEDULE OF KEY MILESTONES

Key Milestone	Care Setting	Date/Timeframe
First Quarter: Observed data over a period of time	Internal Medicine Orthopedics Allergy	Jan - March
Second Quarter: Observed data over a period of time	Internal Medicine Orthopedics Allergy	March - June

170.315(e)(1) - View, Download, and Transmit

Real World Testing 2023

Third Quarter: Observed data over a period of time	Internal Medicine Orthopedics Allergy	July - Sept
Fourth Quarter: Observed data over a period of time	Internal Medicine Orthopedics Allergy	Oct - Dec

ATTESTATION

The Real World Testing plan must include the following attestation signed by the Health IT Developer Authorized representative.

Note: The plan must be approved by a Health IT Developer authorized representative capable of binding the Health IT Developer for execution of the plan and include the representative's contact information.ⁱ

This Real World Testing plan is complete with all required elements, including measures that address all certification criteria and care settings. All information in this plan is up to date and fully addresses the Health IT Developer's Real World Testing requirements.
