

## 170.315(f)(2) – Syndromic Surveillance

### Real World Testing 2023

#### GENERAL INFORMATION

Plan Report ID Number: 2023v1\_F2

Developer Name: Systemedix, Inc.

Product Name(s): Systemedix Clinical Navigator

Version Number(s): 2022.12

Certified Health IT

CHPL Product Number: 15.04.04.2857.Syst.22.01.1.221215

ONC-ACB Certification ID: 15.04.04.2857.Syst.22.01.1.221215

Developer Real World Testing Page URL: <https://www.systemedix.com/mipssolutions.html>

#### JUSTIFICATION FOR REAL WORLD TESTING APPROACH

Having access to stored data, we will be monitoring over time the specified metrics for each applicable measure via database queries. This will allow us to easily confirm utilization as well as see trends over time for the measures for different care settings.

#### STANDARDS UPDATES (INCLUDING STANDARDS VERSION ADVANCEMENT PROCESS-SVAP AND USCDI)

No updates concerning this measure for Systemedix Clinical Navigator version 2022.12

#### MEASURES USED IN OVERALL APPROACH

---

##### DESCRIPTION OF MEASUREMENT/METRIC

The number of clinics in active engagement with syndromic surveillance registries per clinical setting.

---

##### ASSOCIATED CERTIFICATION CRITERIA

170.315(f)(2) – Syndromic Surveillance

---

##### JUSTIFICATION FOR SELECTED MEASUREMENT/METRIC

Shows active engagement with surveillance registries.

---

##### CARE SETTING(S)

## 170.315(f)(2) – Syndromic Surveillance

### Real World Testing 2023

List each care setting which is covered by the measure and an explanation for why it is included.

Care Setting	Justification
Ambulatory Internal/Family Medicine	All care settings have access to utilize this functionality.
Ambulatory Orthopedics	All care settings have access to utilize this functionality.
Ambulatory Allergy Clinics	All care settings have access to utilize this functionality.

#### EXPECTED OUTCOMES

Although clinical navigator has the capability to allow providers the ability to engage with surveillance registries, none that utilize the software have had an eligible registry that they have chosen to directly interface with via our software.

The expected outcome for this measure is that there will be a low number of client records that participated in any form of engagement with Syndromic Surveillance Registries.

The methodology and ability to perform actions related to Immunizations should be present and uniform across all care settings.

The results of the metrics provided should demonstrate this over time.

#### SCHEDULE OF KEY MILESTONES

Key Milestone	Care Setting	Date/Timeframe
First Quarter: Observed data over a period of time	Internal Medicine Orthopedics Allergy	Jan - March
Second Quarter: Observed data over a period of time	Internal Medicine Orthopedics Allergy	March - June

## 170.315(f)(2) – Syndromic Surveillance

### Real World Testing 2023

Third Quarter: Observed data over a period of time	Internal Medicine Orthopedics Allergy	July - Sept
Fourth Quarter: Observed data over a period of time	Internal Medicine Orthopedics Allergy	Oct - Dec

#### ATTESTATION

*The Real World Testing plan must include the following attestation signed by the Health IT Developer Authorized representative.*

*Note: The plan must be approved by a Health IT Developer authorized representative capable of binding the Health IT Developer for execution of the plan and include the representative's contact information.<sup>i</sup>*

This Real World Testing plan is complete with all required elements, including measures that address all certification criteria and care settings. All information in this plan is up to date and fully addresses the Health IT Developer's Real World Testing requirements.
